Air Quality Index Map – California Environmental Protection Agency (Cal EPA)

- The California Air Resources Board (CARB) continues to host smoke monitoring coordination calls with the affected air district and air quality agencies. CARB has 18 air monitors deployed throughout the state to support local air quality agencies. An additional five (5) air monitors were deployed on August 21, 2020 to Winters, Yocha Dehe, Healdsburg, Guerneville Markleville, and Orland, CA. CARB will continue to develop plans and schedule deployments for an additional three (3) air monitors to be deployed over the weekend.
 - Based on the PM2.5 and ozone Air Quality Index (AQI) reported, a large fraction of the South Coast, San Joaquin Valley, San Francisco Bay Area, and Sacramento Valley had air quality either unhealthy or unhealthy for sensitive groups, with some areas experiencing very unhealthy air quality.
